MARFORCOM/MARCORBASES LANT

Executive Force Preservation Board

24-25 May 2010

Topics

- **Beta Test Update**

- **Behavior-Based Safety**

Beta Test Update

Information Brief

- Historical Data (Sequential Endorsement)
  - ☑ FY07 – FY10 average 150 Days until submission of CMFC endorsement to CMC SD
- Beta Test Data (Concurrent Endorsement)
  - ☑ First Mishap - 63 Days until submission of CMFC endorsement to CMC SD
  - ☑ Four (4) mishaps currently in Beta Test process
  - ☑ Projected average of 83 days until submission of CMFC endorsement to CMC SD

CONCURRENT ENDORSEMENT ALLOWS QUICKER TURN ON SAFETY LESSONS LEARNED TO OPFOR!

Behavior-Based Safety (BBS) Process

Information Brief

- Behavior-Based Safety is based on four key components:
  - ☑ Marines and leaders will observe safe and unsafe actions of Marines and provide feedback
  - ☑ Leadership will review observations for trends
  - ☑ Leaders and Marines will set goals to improve safe actions/behaviors.
  - ☑ Reward for improvements (72's, Cert Com's, etc.)

BEHAVIOR-BASED SAFETY CAN REDUCE MISHAPS AND MAY HAVE POTENTIAL TO REDUCE SUICIDES!

A Darwin Approach to Safety

Information Brief
